io design agency

We're a dynamic agency in the world of audiovisual communication, covering everything from advertising, marketing, branding, content creation, influencer marketing to graphic design. You'll find us in Dénia, València, and Bangkok.

What do we do? We're in the business of boosting brands and companies, especially those leading the pack in Thailand and Spain. Our strategy is simple yet effective: we step into your shoes to understand your needs. This way, we come up with smart, fresh solutions that not only elevate your brand but also give your marketing a real edge.

And the best part? We don't just plan; we put those plans into action, bringing your brand's story to life in exciting and effective ways.

MARCHINES MARCHINES

Naviland

Thader Shopping Mall

In this project, our intention was to create a bold, eye-catching, and unique Christmas experience compared to other shopping malls while preserving its essence.

We have used iconic elements with a more modern twist, applied a diverse and cheerful color palette, and incorporated classic Christmas elements.

The audience found a large interactive space, a Christmas world in the style of an amusement park.
